EXECUTIVE SUMMARY

Motivated and detail-oriented graduate with foundational knowledge in computer networking and project management. Skilled in understanding network concepts such as LAN, WAN, IP addressing, and basic network security, along with project planning, scheduling, and coordination. Possesses strong analytical, problem-solving, and communication skills, with the ability to work collaboratively in team-based environments. Seeking an entry-level role to apply technical and managerial skills while contributing to organizational goals.

PROJECT

Airlines Reservation System

The project involves developing a machine learning-based airline reservation system designed to enhance efficiency, personalization, and decision-making in air travel. The system leverages historical flight data, including features such as airline names, source and destination cities, travel dates, departure and arrival times, flight duration, number of stops, and ticket prices, to predict future ticket costs accurately.

KEY SKILLS : Machine learning using python.

INTERNSHIP

Techciti technologies private limited

Intern – Machine Learning

Completed an internship at Tech City Pvt. Ltd., gaining hands-on experience in Machine Learning concepts and applications. Worked on data collection, preprocessing, and analysis to build ML models. Assisted in developing and testing machine learning algorithms for real-world problem solving. Gained practical exposure to Python, ML libraries, and model evaluation techniques. Improved skills in analytical thinking, teamwork, and technical documentation.

EDUCATION

Master of computer application (MCA) **jan 2025 - present**

International school of management excellence, Bengaluru.

Bachelor of computer application (BCA) **Oct 2021 - Dec 2024**

Akshara first-grade college, Bengaluru

ADDITIONAL INFORMATION

- **Languages:** English, Kannada, Telugu, Hindi.
- **Certifications:** Data Science by study vision.
